The Ricoh TLS 401 was introduced in 1970 as an innovative successor to the three year older Ricoh Singlex TLS, having a combined eye-level and waist-level finder. Selection of either is by twisting a knob on the right-hand side of the finder housing. The vertical finder window has a removable black plastic cover, which, if turned the other way round as the practical minded will discover, may ...

The TLS design is the screw-mount update to the camera that was the Nikkorex F, Ricoh Singlex (Nikon F-mount) and Sears SLII. The design was then licensed to Cosina who modified it slightly to create the highly underrated Cosina Hi-Lite. See the Argus/Cosina STL 1000 page for how this fits into camera history.
