Similarly, robots used by the military, through unmanned spy planes or as mine detectors, engender a fascination with the engineering and the potential of what else can be done with robots. Children love to read and talk about robots. Crabtree's "Robozones" series will be a big hit with kids, especially young boys.

Robot Workers reveals that, while most of us still do our own chores, that vision of the future is finally becoming a reality in the form of robotic vacuums and lawn mowers. It also shows us what industry has seen the biggest benefit, with robots now being widely used by car manufacturers to weld and paint vehicles, and in warehouses to stack and pack goods.
