Most researchers investigating the relationship between self-efficacy and performance have reported a strong correspondence (Pajares and Miller, 1994). Students with strong senses of self-efficacy tendency involve in challenging tasks, invest more effort and persistence, and show excellent academic performance in comparison with students who lack such confidence (Bong, 2001, cited by Nasiriyah, Azar, Noruzy, Dalvand, 2011).

The Relationship between Self-Efficacy and Academic ...

Consequently, self-efficacy is another factor that is likely to be considered as a variable defining and determining academic performance. Self-efficacy refers to a student's belief in his or her capacity to execute behaviors necessary to produce specific performance attainments (Bandura, 1977).

Relationship between Self-efficacy and Academic ...

Academic self-efficacy is also implicated in several moderating relationships with academic performance, with ASE interacting with several cognitive and non-cognitive variables to influence performance. Academic self-efficacy appears to be positively moderated by non-cognitive variables such as time on task (Tabak et al., 2009) and cognitive factors such as emotional intelligence (Adeyemo, 2007), with negative emotions negatively

moderating the ASE and academic performance relationship ...

The influence of academic self-efficacy on academic ...

SELF-EFFICACY AND ACADEMIC SUCCESS 13 Studies indicate that “perceived self-efficacy occupies a central role in the causal structure of social cognitive theory because efficacy beliefs affect adaptation and change not only in their own right, but through their impact on other determinants” (Bandura et al., 2001, p. 188).

The Correlation Between Self-Efficacy and the Academic ...

Self- efficacy has operationally defined as one’s belief that people can successfully perform a given task. The main purpose of the paper is to discuss how self-efficacy developed and the way it...
