Shadows on computers can be a complicated topic. There are various solutions and all of them have tradeoffs including the solutions available in three.js. Three.js by default uses shadow maps. The way a shadow map works is, for every light that casts shadows all objects marked to cast shadows are rendered from the point of view of the light.

4.5 Stars Although I'm too much of a HUFFLEPUFF to be like Alessandra or to even have the guts to do half the things she does in this book, *The Shadows Between Us* wooed me in all its SLYTHERIN glory. Tired of being constantly overlooked, Alessandra is determined to prove just how cunning and villainous she could be. The plan is simple: 1) Woo the Shadow King.
