This book constitutes the thoroughly refereed post-conference proceedings of the 18th International Conference on Smart Card Research and Advanced Applications, CARDIS 2019, held in Prague, Czech Republic, in November 2019. The 15 revised full papers presented in this book were carefully reviewed and selected from 31 submissions.

Smart Card Research and Advanced Applications | SpringerLink

19th Smart Card Research and Advanced Application Conference Scope CARDIS has been the venue for security experts from industry and academia to exchange on security of smart cards and related applications since 1994.

19th Smart Card Research and Advanced Application Conference

Smart cards, or by extension smart devices are the basis for many secure systems and play a decisive role in ID management. Unlike events devoted to commercial and application aspects of smart cards, CARDIS conferences gather researchers and technologists who focused on all aspects of the design, development, deployment, validation and application of smart cards or smart personal devices.
