Put together a spreadsheet that estimates the one-time startup costs for your business (licenses and permits, equipment, legal fees, insurance, branding, market research, inventory, trademarking, grand opening events, property leases, etc.), as well as what you anticipate you will need to keep your business running for at least 12 months (rent, utilities, marketing and advertising, production, supplies, travel expenses, employee salaries, your own salary, etc.).

Starting a Business - The Balance Small Business

Start with as much of your own money as possible. Many small business owners cover their start-up costs entirely through loans, with the expectation that they will begin paying back the loans with the profits from their new business. New businesses can take months or years to generate a profit, however, and loan payments can really become a millstone around the neck of a fledgling operation.

Tips for a Successful Small Business - FindLaw
