Health Organization

Question: "What does the Bible say about health?" Answer: Good health is something we take for granted—until we start to lose it.

When our health takes a downturn, we quickly begin to question our habits and diet. God has designed the human body so that it is a finely tuned instrument that is the most resilient on earth.

and ...

Human physiology is the study of how the human body functions.

This includes the mechanical, physical, bioelectrical, and biochemical functions of humans in good health, from organs to the cells of which they are composed. The human body consists of many interacting systems of organs.
