It tracks 3 American families who 'crossed the race line' at different points in history - the Gibsons, Spencers, and Walls. When I first started, I found the switches from family to family confusing - the book goes by era, describing

each family in that era
before moving on to
the next - but by the
time it reached the
Civil War era I started
to enjoy it.

unravels the stories of
three families who
represent the
complexity of race in

to rethink our basic

who we are. For

The book is eminently readable, and tells the story of three American families, all of whom

crossed the color line at some point, many never looked back. Its gripping tale of family history reminded me of Anthony Lukas' stellar book on Boston's busing struggles, *Common Ground* - both books use personal family stories to shed light on how attitudes towards race evolve and change and shape each of us.
