From the frozen landscapes of the Antarctic to the haunted houses of childhood, the memory of places we experience is fundamental to a sense of self. Drawing on influences as diverse as Merleau-Ponty, Freud, and J. G. Ballard, *The Memory of Place* charts the memorial landscape that is written into the body and its experience of the world.

## **Project MUSE - The Memory of Place**

The Memory of Place begins with a discussion of a specific type of monument (the architectural, one could call it), yet Trigg's concern here is with memory in general, and thus the monumental in the broader sense of its Latin root "monere," "to remind."
