WILDLIFE IN SERENGETI | Wild animals | Serengeti National ...

Serengeti National Park is a 5,700 square mile park located in Tanzania, Africa. It is the oldest national park in the country, which began when a partial game reserve was created in 1921 to protect the lions in the region. It became Serengeti National Park in 1951. Prior to the arrival of the Britons in 1913, the first European known to visit the Serengeti was Oscar Baumann, in 1892.

Serengeti National Park Facts

His book from the "Wildlife Behavior and Ecology Series" is a result of a three year study in the Serengeti National Park. Supplemented by charts and action-depicting photos and drawings, the book describes almost every aspect of lion life, from social structure and behavior within the group to food habits, hunts and the impact of predation on ...
