The Thames Ironworks A History

The Thames Ironworks and Shipbuilding Company, Limited was a shipyard and iron works straddling the mouth of Bow Creek at its confluence with the River Thames, at Leamouth Wharf on the west side and at Canning Town on the east side. Its main activity was shipbuilding, but it also diversified into civil engineering, marine engines, cranes, electrical engineering and motor cars. The company notably produced iron work for Isambard Kingdom Brunel's Royal Albert Bridge over the Tamar in the 1850s, an

On 20th March, 1896, Thames Iron Works played a night game against the famous West Bromwich Albion. The club committee arranged for the erection of canvas screens round the moat-ringed pitch, and charged the public for watching the game. WBA won 4-2. By the end of the season the Thames Iron Works had won 30 of its 46 games.

History of West Ham United - Spartacus Educational

Ironworks succeed bloomeries when blast furnaces replaced former methods. An integrated ironworks in the 19th century usually included one or more blast furnaces and a number of puddling furnaces or a foundry with or without other kinds of ironworks. After the invention of the Bessemer process, converters became widespread, and the appellation steelworks replaced ironworks.
