Orientalism is the imitation or depiction of aspects in the Eastern world. These depictions are usually done by writers, designers, and artists from the West. In particular, Orientalist painting, depicting more specifically "the Middle East", was one of the many specialisms of 19th-century academic art, and the literature of Western countries ...

All in all, The Woman on the Orient Express was a light, enjoyable story for my daily commute. Whilst I found some of the events in the last part of the story slightly predictable and differing a bit too much from historical facts for my liking, it put an interesting spin on a chapter in Christie's life which saw her moving on from her broken
