In this lesson from Advanced Placement Economics (4th Edition), students examine the effect of net capital flows on the macroeconomy through the loanable funds market. The loanable funds market is used to analyze capital flows in an economy because financial capital affects the amount of money available for borrowers and shifts the supply curve for loanable funds.

government is to get rid of all forms of unemployment or to keep it at a minimum. In certain cases, it does not occur, and the main governments and authorities go to establishing and trying to gain a reasonable level of unemployment. The United States of America has the same goals. The United States has the world's largest economy, and even though there ...
