Volvo 240, 740, 940 Transmission Flush DIY. With proper care, the automatic transmissions for rear wheel drive Volvos will last as long as the redblock engines they're attached to. Proper care means a flush of the transmission fluid about every 30k miles. This is a very simple procedure and can be done for little more than the cost of the fluid. Fresh transmission fluid is a beautiful, but toxic, translucent red, the color and consistency of cherry flavor cough syrup.
