the character of trade has changed from an implicit tool of coercion to the explicit means through which foreign policy objectives are achieved.

The weaponisation of trade - Deutsche Bank

Trade is being weaponized - and this isn't good. As politicians on both sides of the Atlantic raise the stakes, trade is increasingly a tool of coercion to achieve strategic influence. This book looks at the risks for us all as trade becomes an instrument of foreign policy, and shows how politicians could turn things around.

Obama's Weaponization of Government

World trade experienced a sudden, severe, and synchronised collapse in 2008 - the steepest drop in recorded history, and the deepest fall since the Great Depression. This column argues that 2020 will show a trade collapse that is far larger since the 'COVID concussion' is both a demand shock and a supply shock while the 2008-09

The Great Disruption: Covid-19, Geopolitics, Trade And ...

This book investigates the strategy behind goods trade with some particularly interesting examples from Russia-Syria and China-North Korea. The authors contend that a ‘literal’ and a ‘figurative’ weaponisation of trade is taking place – first through the targeted exports of arms and dual-use goods and secondly through the rhetoric in order to communicate the strategy to their domestic support base.
